

Capital
CONCRETE

Is there a more important material in our lives than concrete?
Our towns and cities are shaped by concrete. It builds our homes, schools, bridges, hospitals and roads with a strength that we can all rely upon.

For our homes, concrete inspires modern interiors with polished flooring, sculpted bench tops and furniture of distinct character and beauty. In roofing, concrete is a clever way of retaining energy in your home and protects you from the elements. It won't rust or corrode so your investment in your home is kept safe.

Monier concrete roofing comes in a palette of colours and a range of styles that will set the tone for your home, inside and out.

In fact, why don't you start your colour scheme with the roof? The following pages will help you make every decision about your home just so much easier.

Create your own exceptional home with assurance and pride.

It won't rust or corrode so your home and the people you love are protected.

What a capital idea!

Story One

HIGH STREET

Its glittering lights and attractions draw us
out of our private spaces into public life.

The High Street is where we gather in cafés
and restaurants, shop for basics and luxuries.

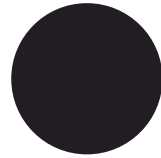

The familiar and the new come together in
one dynamic place.

Your High Street Home.

Story Three

THE UNDERGROUND

The underground reverberates with an energy
that shakes up the normality above ground.

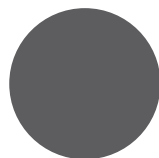

This is a place for insiders, creative spirits
and non-conformists that find light and life
in subterranean spaces.

Your Underground Home.
